Limit to Height of Building.

The proposed office building at 8th and G streets northwest will be limited in height to ninety feet, according to a ruling just made by the District Commissioners. The subject was considered generally and the ruling applies "to buildings to be constructed in the squares adjacent to the patent office."

It was practically decided to allow no cornice line of surrounding buildings to be higher than ninety feet, giving a possible ten feet more for a sloping roof. The height allowed recently for buildings adjoining the treasury was much less, on account of the treasury not being as high as the main parts of the patent office and the adjoining streets around the treasury being narrower than those about the patent of-

Awful Suffering of Little Boy from an Itching Humour.

ninth season are being held this week. The Not One Square Inch of Skin on His Whole Body Unaffected.

"My little son, a boy of five, broke out with an itching rash. Three doctors prescribed for him, but he kept getting worse until we could not dress him any more. They finally advised me to try a certain medical college, but its treatment did no good. At the time I was induced to tr Cuticura he was so bad that I had to cut his hair off and put the Cuticura Ointment on him on bandages, as it was impossible to touch him with the bare hand. There was not one square inch of skin on his whole body that was not affected. He was one mass of sores. The bandages used to stick to the skin and in removing them it used to take the skin off with them, and the screams from the poor child were heart-breaking. I began to think that he would never get well, but after the second application of Cuticura Ointment I began to see signs of improvement, and with the third and fourth applications the sores commenced to dry up. Hir skin peeled off twenty times, but it finally yielded to the treatment. Now I can say that be is entirely cured, and a stronger and boy you never saw than he is today." Six Years Later Mr. Wattam Writes

"Your letter of the 21st in regard to the case of my little boy at hand. I am truly thankful to say that the cure effected by the Cuticura Remedies has been a most thorough and successful cure to date." Chicago, Feb. 23, 1903. Sold throughout the world. Cutieurs Resolvent.

A recent gift of \$10,000 was reported from a woman friend in Illinois, who desires her name not to be given at present, but promises an additional \$15,000 in a few weeks, Another friend in Indiana has lately given unconditionally a farm of 700 acres in good state of cultivation, on the Ohio river, valued at from \$20,000 to \$25,000. Some of the holdings of the university in the southwest were reported as having appreciably advanced in value during the last Ew months. The trustees approved the action of the
